Press Release

DuoShare Certifies Credit Card Interface with Vital Processing Services®

Dallas, Texas, July 28, 2003: DuoShare, Inc., a privately held software services company in Dallas, Texas, has certified its credit card interface with Vital Processing Services, a joint venture between Visa® U.S.A. and TSYS®, for electronic credit card transactions. Using TCP/IP communications over a dedicated VPN link to the banking network, the DuoShare Payments™ module enables DuoShare virtual stores and customers on the Internet to send secure electronic payments to banks participating in VisaNet®.

“This interface enables DuoShare to process a high volume of payment transactions, and gives us control to exploit new payment methods and features quickly as they become available,” according to Stephen Buck, Vice President of DuoShare. DuoShare software is written in the highly scalable Java 2 Platform, Enterprise Edition (J2EE™) programming language, which enables online payment transactions to scale up to meet the needs of DuoShare’s customers.

DuoShare PaymentsSM is accessible to any computer with Internet access. For more information, call DuoShare or visit the website at <http://duoshare.com>.

Java 2 Platform, Enterprise Edition (J2EE) defines the standard for developing component-based multi tier enterprise applications. The de-facto standard for delivering secure, robust, scalable multi-platform applications and services, J2EE technology and its success is predicated on compatibility which brings Java technology's mission of “Write Once, Run Anywhere™” capability to the server. J2EE is maintained by the Java Community Source ProcessSM under the direction of Sun Microsystems™ (NASDAQ:SUNW). Compatible J2EE Application Servers are developed and marketed by over 200 companies including BEA™, Borland®, IBM®, IONA®, Novell™, Oracle®, SAS®, Sun™, and VA Software™.

Vital Processing Services® (Vital) offers technology-based end-to-end commerce enabling services to acquirers and merchants. By combining the VisaNet® authorization and data capture network with the TSYS® Clearing and Settlement system, Vital was formed to deliver comprehensive payment solutions for processing credit, debit and other card transactions, from point-of-sale to clearing and settlement. Vital is a joint venture of Visa® U.S.A. and TSYS.

DuoShare, Inc. is a privately held software services company based in Dallas, Texas, founded in 2001 to create specific business processes and services and deliver those via the Internet.
