Press Release

DuoShare Offers Change-of-Address Processing

Dallas, Texas, October 6, 2005: DuoShare, Inc., announced today that the company has added Change-of-Address to its list of features included with DuoShare Address Quality ServicesSM. By making Change-of-Address information available, DuoShare customers can now update mailing lists with new addresses when postal customers move, and save money by reducing undeliverable mail.

DuoShare can access all change-of-address records of customers in the United States and its territories who have filed an address change with the Postal ServiceTM. Using this change-of-address data, DuoShare can provide current address information covering the most recent 18 months. The company has also added the capability to provide "probable move" information for names and addresses matched to data in months 19 – 48, indicating addresses which are probably undeliverable. Using "probable move" data, the mailer can choose not to mail to an address if there is a probable move, or as an alternative, change the recipient's name to "Current Resident," or other generic equivalent, and mail to the new occupant. This smaller list of undeliverable recipients can then be escalated to more expensive data processing services to help relocate the recipients, if necessary.

Change-of-Address is the latest addition to DuoShare's services as part of the company's philosophy to provide comprehensive address quality without increasing fees to customers. Stephen Buck, Vice President of DuoShare, confirms this commitment to its customers. "We are proud to release this data quality service at no additional cost."

DuoShare Address Quality Services are offered under Value-Added PricingSM at 5¢ per change with no minimum charge, Direct Mail Pricing at 65¢ per thousand with a \$30 minimum charge, and Corporate Pricing at \$2,500 per year, per 5 million addresses. DuoShare does not require a contract and there is no long-term commitment. For more information, call DuoShare or visit the website at <http://duoshare.com>.

DuoShare, Inc. is a privately held software services company based in Dallas, Texas, founded in 2001 to create specific business processes and services and deliver those via the Internet.
