Press Release

DuoShare Certifies as Suite^{Link}TM Interface Developer

Dallas, Texas, June 7, 2007: DuoShare, Inc., creator of the first 100% Web-based Address Quality Service, recently certified Suite^{Link} with the United States Postal Service®. Suite^{Link} adds secondary information, such as suite numbers, to known business addresses. The product not only enhances the quality of mailing addresses, but it also allows the USPS® to delivery sequence those addresses to achieve additional operational efficiencies.

As part of DuoShare's principal offering, Suite^{Link} has been incorporated into DuoShare Address Quality Services. According to Michael Harvaneck, Manager of Postal Products and Services, "Missing secondary information is a very common problem with business addresses. Adding Suite^{Link} as part of our core service further extends the capabilities and value of our all-inclusive Address Quality Services."

DuoShare, Inc. is a privately held software services company based in Dallas, Texas, founded in 2001 to create specific business processes and services and deliver those via the Internet.
